PRODUCT UPDATE

Document #: **EB-033**
Date: **October 23, 2026**
To: **All Americas**
CC: **Americas Leadership Team**
From: **Royce Breckon**
Subject: **GM Series Damper Actuator Phase-Out and Last-Time Buy**

Belimo will phase out the GM Series damper actuator models listed below.

The firm Last-Time-Buy date is December 18, 2026, and final orders will ship by February 26, 2027.

The corresponding new GM models are available now. Customers should place final orders for the outgoing models by the deadline and transition to the replacement models shown below. Warranty replacements will be provided with the existing product (if available) or with the technically closest successor product from the New Digital Generation.

Phase Out Model	New Model	Description	List Price (USD)	List Price (CAD)
GMB(X)24-SR	GM24SR.1B	Rot act 24V 360 in-lb SR N2 150s	$1,162.00	$1,193.00
GMX24-SR-T	GM24SR.16	Rot act 24V 360 in-lb SR N2 TP 150s	$1,120.00	$1,149.00
GMB(X)24-3	GM24.8F	Rot act 24V 360 in-lb O/C N2 150s	$872.00	$895.00
GMX24-3-T	GM24.1A	Rot act 24V 360 in-lb O/C N2 TP 150s	$830.00	$852.00
GMX120-3	GM120.2C	Rot act lineV 360 in-lb O/C N2 150s	$952.00	$977.00
N/A	GMC24S.27	Rot act 24V 360 in-lb O/C N2 35s w/ Switch	$1,065.00	$1,093.00
N/A	GMC120S.27	Rot act lineV 360 in-lb O/C N2 35s S2 w/ Switch	$1,145.00	$1,175.00

New Digital Generation - GM Series Overview

- New Belimo ASIC microchip supports precise control and feedback, even when the gear train is disengaged.
- Energy consumption is reduced by approximately 80% compared with the outgoing GM, with only 0.2 W in standby and 2 W in operation.
- The free and intuitive Belimo Assistant 2 app enables NFC-based configuration for direction of rotation, running time, end stops, control signals, feedback, and more, even when the actuator is unpowered.
- Field-replaceable and interchangeable cable and terminal connections simplify wiring while being sealed for IP65 ingress protection.

- An integrated LED indicator shows device power and status from any angle and can be turned off through the Belimo Assistant 2 app.
- A redesigned motor and silent gear design reduce operating noise.
- Backward compatibility with existing GM mounting dimensions for seamless retrofit.
- Robust design with NEMA 2 (IP54) protection for dust and splash resistance.
- Backed by Belimo's standard 5-year warranty.

For technical questions and further information, please contact your local Belimo District Sales Manager.

Sincerely,

Royce Breckon
Product Manager, Non Fail-Safe Damper Actuators
